a
Silhouette over K (100 subsamples)
best mean − 1 SD
K = 50
plateau
Mean silhouette
Number of clusters K
b
Distance within and between clusters
mean distance to
own cluster
nearest other cluster
median 0.39
median 0.70
Diseases
Mean distance (1 − p) per disease (n = 13,019)
c
Agreement with MONDO body systems
Same-cluster pairs sharing a body-system class
0.65
0.25
observed clusters
shuffled cluster labels
random disease pairs
Adjusted mutual information
0.36
max 0.0025
Share of pairs / AMI
